WHY ANSELL?

Our mission is to provide innovative and effective solutions for safety, well-being, and peace of mind, no matter who or where you are.

Every day, more than 14,000+ people in 58 countries design, manufacture and market products on which millions of workers and healthcare professionals rely on.

MARKET LEADERSHIP

No. 1 or 2 market share in key segments globally

Safety assessments for every industry

Sell ~12 billion gloves per year

Average medical professional personally wears nearly **1,200 pairs of Ansell gloves** per year

Protect more than **10 million workers** each day

ANSELL ADVANTAGE

Protection

- Protect healthcare workers and patients
- Broad portfolio to meet ALL protection needs

Innovative

- Worker Experience Innovation: Technology innovations focused on customer: Comfort, Performance, Protection
- Continuously evolving to meet changing regulatory standards

Reliable

- On-time delivery to our channel partners
- Manufacturing excellence
- Multiple manufacturing and warehousing facilities to improve supply chain efficiency

High Quality

- High degree of product consistency
- High levels of end-user satisfaction
- Clear product differentiation (AQL, coating technology, in-house & external testing, etc.)

Trusted Partner

- Superior customer service
- Clinical education
- Implementation expertise
- 125-year legacy

Presence

- Channel / GPO / DSO Neutral; Service to entire care continuum and every class of trade
- Global player
- Focus on corporate sustainability

SUSTAINABILITY AT ANSELL

Ansell is recognised as a world leading company in the safety industry. We are a listed company and are proud of the performance we deliver to our shareholders. We are also a truly global company, with over 13,000 employees spread across 54 countries. Our obligations extend not only to our investors, but also to our customers, employees and wider workforce, suppliers, community and our planet.

We are committed to doing business in an ethical manner which yields long-term, sustainable benefits for the Company and all of our stakeholders. Our goal is to become a leader in sustainability, just as we are in safety.

Our Responsible and Responsive Strategy and Purpose encapsulates our key stakeholders and areas of focus for sustainability which are covered in this report.

A Responsible and Responsive Strategy & Purpose

Better Society	 Employees and wider workforce	 Community	 Business ethics	<ul style="list-style-type: none"> • We care about our people and safety is our top priority • We support our communities • We play fair and conduct business ethically
	 Water	 Energy and carbon	 Materials and waste	<ul style="list-style-type: none"> • We use natural resources with care • We work to continually lower our GHG emissions • We respect the local environment
	 Customers	 Suppliers	 Investors	<ul style="list-style-type: none"> • We provide our customers with safety and productivity solutions • We choose like-minded partners • We reward investors

AlphaTec® Solvex® 37-185 [More Info](#)

High-comfort, chemical resistant glove for a wide range of applications, covering to the top of the elbow

- No inner cotton flocking, reducing risk of lint contamination and making it ideal for production areas sensitive to the introduction of external impurities
- Sandpatch finish giving the glove a smooth surface that decreases indirect costs, thanks to fewer rejects of fragile parts
- Fully reusable, with an unequaled abrasion resistance
- Provides superb comfort for the wearer
- Complies with FDA food handling requirements (21 CFR 177.2600)

AlphaTec® 37-310 [More Info](#)

These food-processing gloves offer all-day comfort at an exceptional value

- 100% latex-free
- Unflocked: to prevent the risk of food contamination
- Extra-thin 8 mil/0.2mm palm for PPE gloves with advanced dexterity

AlphaTec® 37-300 [More Info](#)

All day comfort at exceptional value

- 8mil / 0.2mm thickness allows dexterity and tactility without a loss of durability
- NBR offering protection against light acids, greases, oils and liquids
- Engineered fit to allow optimum balance of fit and flexibility both on its own or as an over glove
- The latex-free formulation of these gloves presents no risk of Type 1 allergies
- Long cuff extends to the forearm

GENERAL PROTECTION

HyFlex® 11-840 [More Info](#)

Extreme durability for extended wear in abrasive applications with up to 20% higher abrasion protection

- **Improved abrasion protection:** provides 20% more abrasion for longer lasting handling in abrasive conditions
- **Enhanced grip:** up to 2 times more grip in dry environments for secure handling and a safer day at work
- **Thin FORTIX™ nitrile foam coating:** the new and improved coating is softer which increases flexibility and comfort. The 1.25 mm nitrile coating provides up to 2 times more grip and offers 20% longer wear time.
- **Ergonomic fit:** Optimized knitting at the base of the pinky finger across the finger tips and through the palm matches natural hand contours
- **Ultimate comfort:** Ansell ZONZ™ Comfort Fit Technology optimizes the knitting in selecting zones of the liner improving support, breathability and range of movement
- **Silicone-free:** no transfer of silicone contaminants to metal parts prior to painting
- **Clean and Skin Friendly:** benefits from proprietary washing process that efficiently extracts impurities to deliver a cleaner, more comfortable glove
- Oeko-Tex® and Dermatest certified
- DMF free

COLD & HEAT PROTECTION

ActivArmr® 52-590 [More Info](#)

Nitrile impregnated coating on a jersey liner

- General purpose glove in medium to heavy duty applications. More flexible, more comfortable, far more hard-wearing
- Superior resistance to abrasion and good protection against minor injuries, cuts and puncture
- Close, comfortable fit while safely cushioning the hand. Absorbs perspiration, keeping the hand dry and comfortable for longer
- Excellent dry grip. Makes handling quicker and easier

ActivArmr® 97-681 [More Info](#)

Cold and liquid protection with dexterity and comfort

- PVC coating provides grip and flexibility, even in the coldest temperatures
- RIPEL™ Technology keeps liquids out helping your hands stay dry and warm longer
- Two-layer design gives the user:
 - PVC coated flexible nylon exterior to protect against liquid and mechanical risks, including cut
 - Soft and insulative acrylic interior provides comfort and warmth
- Industry leading combination of warmth and dexterity in a liquidproof glove
- Thin enough to handle small objects but protective enough for harsh environments

FIRE / HAZMAT RESPONSE / BODY PROTECTION

FIRE / CHEMICAL PROTECTION

AlphaTec® FLASH Type CV / VP1 [More Info](#)

Flame retardant, multi-layer, re-usable chemical barrier technology, Type 1 / Level A protection

- Meets NFPA 1991:2016 including the optional chemical flash fire and liquefied gas protection requirements
- Patented fabric system with chloroprene rubber on an aramid base fabric, providing excellent flame and abrasion resistance
- Provides an outstanding barrier against a wide range of chemicals
- Well-proven encapsulating design that fits on top of all major SCBA brands and bottle sizes
- PyroMan™ tested

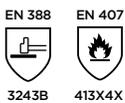

ANIMAL CONTROL

PUNCTURE RESISTANCE & CUT PROTECTION

ActivArmr® 43-216 [More Info](#)

These industrial heat-resistant gloves offer high levels of durability, control and protection from heat, flame, sparks and puncture

- Improved 3-dimensional thumb design for fine dexterity and control
- Premium split cowhide leather and welted seams with Kevlar®
- Cotton liner for enhanced protection
- Long cuff for enhanced protection
- Do not use in heavy-duty cut applications. The glove is not liquidproof, hence is not to be used with chemicals
- Keep away from sources of ozone or ignition. Keep out of direct sunlight. Store in a cool and dry place

SINGLE-USE PROTECTION

MICROFLEX® MidKnight™ Touch 93-732 [More Info](#)

Provides excellent dexterity along with enhanced comfort fit and feel

- Enhanced dexterity and tactility in a thin, yet strong design
- Distinctive black color provides contrast while also hiding the appearance of oils, bodily fluids and other stains
- ERGOFORM™ design technology reduces muscle strain during repetitive tasks, improving worker comfort and productivity
- Textured on the fingertips for secure handling of instruments and materials

MICROFLEX® MidKnight™ MK-296 [More Info](#)

Black nitrile gloves that mask stains

- The distinctive color of these black nitrile gloves hides stains and provides contrast for improved visibility
- These disposable grip gloves feature a fully textured design for a confident grip
- Non-foaming for easy handling of objects in wet environments
- Tested against both fentanyl and gastric acid (vomit) to simulate hazardous, real world overdose situations
- Tested against both fentanyl and gastric acid (vomit) to simulate hazardous, real world overdose situations
- **ACPP (Dynamic Testing Protocol)* used for Fentanyl testing - Results showed no permeation after 30 min. of dynamic testing protocol**

MICROFLEX® SUPRENO™ EC SEC-375 [More Info](#)

Durable nitrile gloves that offer extra durability to enhance safety

- Superior strength and durability for maximum protection against rips, snags or tears
- Low, 0.65 AQL for advanced barrier protection
- Tested for use with chemotherapy / cytotoxic drugs
- Meets or exceeds the emergency medical glove requirements of NFPA 1999
- Tested against both fentanyl and gastric acid (vomit) to simulate hazardous, real world overdose situations
- Tested against both fentanyl and gastric acid (vomit) to simulate hazardous, real world overdose situations
- **ACPP (Dynamic Testing Protocol)* used for Fentanyl testing - Results showed no permeation after 30 min. of dynamic testing protocol**

WELDING PROTECTION

ActivArm[®] 43-216 [More Info](#)

These industrial heat-resistant gloves offer high levels of durability, control and protection from heat, flame, sparks and puncture

- Improved 3-dimensional thumb design for fine dexterity and control
- Premium split cowhide leather and welted seams with Kevlar[®]
- Cotton liner for enhanced protection
- Long cuff for enhanced protection
- Do not use in heavy-duty cut applications. The glove is not liquidproof, hence is not to be used with chemicals
- Keep away from sources of ozone or ignition. Keep out of direct sunlight. Store in a cool and dry place

ActivArm[®] 43-217 [More Info](#)

Our best welding glove provides users with high tactility and dexterity while keeping their hands protected and safe

- TIG welding glove that provides EN12477 Type-B protection for precise welding and thermal tasks
- Suitable for TIG welding, as well as grinding, brazing, metal fabrication and maintenance
- Provides protection from heat, flames, sparks and weld spatter
- 3-dimensional thumb design greatly increases fine dexterity for precise welding control
- Premium full grain goatskin and welted seams with para-aramid thread ensure durability in use
- Long split cowhide cuff extends protection to the forearms

GENERAL & IMPACT PROTECTION

ActivArm[®] 97-120 [More Info](#)

Best in class oil and impact protection

- Feature Icons - Integrated glove feature icons allow for quick identification
- High Visibility - Bright orange - colored exterior and reflective logo
- Oil Impermeable Barrier - Repellency from drilling fluids and oils to keep hands clean and improve comfort
- Enhanced Oil Grip - Mitigates hand fatigue and injury by addressing the #1 worker frustration for efficiency and safety
- Impact Protection - Impact bumpers protect entire back of hand from medium-level impact injury to prevent loss time

MASS TRANSIT

GENERAL PROTECTION

HyFlex® 11-840 [More Info](#)

Extreme durability for extended wear in abrasive applications with up to 20% higher abrasion protection

- **Improved abrasion protection:** provides 20% more abrasion for longer lasting handling in abrasive conditions
- **Enhanced grip:** up to 2 times more grip in dry environments for secure handling and a safer day at work
- **Thin FORTIX™ nitrile foam coating:** the new and improved coating is softer which increases flexibility and comfort. The 1.25 mm nitrile coating provides up to 2 times more grip and offers 20% longer wear time.
- **Ergonomic fit:** Optimized knitting at the base of the pinky finger across the finger tips and through the palm matches natural hand contours
- **Ultimate comfort:** Ansell ZONZ™ Comfort Fit Technology optimizes the knitting in selecting zones of the liner improving support, breathability and range of movement
- **Silicone-free:** no transfer of silicone contaminants to metal parts prior to painting
- **Clean and Skin Friendly:** benefits from proprietary washing process that efficiently extracts impurities to deliver a cleaner, more comfortable glove
- Oeko-Tex® and Dermatest certified
- DMF free

SOLID WASTE MANAGEMENT

GENERAL PROTECTION

ActivArm[®] 80-100 [More Info](#)

Superb mechanical performance with comfort and a sure grip

- Crinkled finished coating for an excellent dry or wet grip for better safety and productivity
- Designed for use in a wide range of handling and carrying applications
- Delivers excellent overall mechanical performance for maximal protection and durability
- Automatic knitted liner delivers an optimally tensioned inner surface for superb fit and flexibility

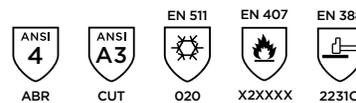

COLD & HEAT PROTECTION

ActivArm[®] 80-400 [More Info](#)

Excellent insulation and comfortable handling in cold conditions

- High visibility with seamless yellow thermal terry liner
- Bright blue crinkled palm provides added wet and dry grip
- Insulated glove for use in cold temperatures
- Ergonomic design for superior fit, comfort, flexibility and dexterity
- Also offers protection when handling hot parts up to 250°C / 480°F for 15 seconds

CHEMICAL RESISTANT / BREATHABLE PROTECTION

AlphaTec[®] Breathable FR Bib Overall 66-672 [More Info](#)

NFPA 1992 and NFPA 2112 certified bib-overall is breathable, re-usable and resistant to chemical splash, flash fire, arc flash and hot liquids.

- Chemical splash fabric provides protection with penetration data for more than 70 chemicals
- FR fabric resists flash fire, arc flash and hot liquids
- Breathable fabric maximizes comfort, reducing the risk of heat stress and increasing productivity
- Sealed seams and double front storm flap ensure the whole garment offers leak-tight protection from chemical spray
- FR adjustable straps and buckles
- Hook-and-loop fastenings at legs
- Durable laminated fabric system is machine washable for longer, cost-effective service life
- Certified according to NFPA 1992 - 2018 - liquid splash-protective clothing for hazardous materials emergencies
- Certified according to NFPA 2112 - 2018 - standard on flame-resistant clothing for protection of industrial personnel against short-duration thermal exposures from fireautomatic knitted liner delivers an optimally tensioned inner surface for superb fit and flexibility

Neither this document nor any other statement made herein by or on behalf of Ansell should be construed as a warranty of merchantability or that any Ansell product is fit for a particular purpose. Ansell assumes no responsibility for the suitability or adequacy of an end user's selection of gloves for a specific application.

WARNING: Products that provide "cut resistance" and "cut protection" or "puncture resistance" and "puncture protection" do not completely prevent or eliminate the potential for cuts or punctures, and are not intended or tested to provide protection against powered blades, serrated or other sharp or rotating equipment. Products offering "viral protection" do not completely prevent the transmission of disease. Products that provide chemical resistance" or "chemical protection" do not completely prevent or eliminate the potential for injury due to chemical exposure. Products that provide "resistance" to oil or grease or which are "oil repellent" do not completely prevent or eliminate the potential for oil or liquid penetration or absorption. Products that provide "snag resistance" or "snag protection" do not completely prevent or eliminate the potential for snags or friction-related injuries. Products that provide protection against sparks or flames are not "fireproof" and do not completely prevent or eliminate the potential for burns or associated injuries. Products that provide protection or resistance against heat or cold are not intended for use in extreme temperatures – use only as specified. Products containing natural rubber latex may cause allergic reactions in some individuals. Products that provide "impact, crush and pinch protection" do not completely eliminate the potential for impact or crush related injuries. Users are encouraged to always use caution and care when handling sharp or abrasive materials, chemicals, or other hazardous or dangerous substances. Any information or data provided is based upon Ansell's current knowledge and understanding of the subject matter, and is offered solely as a possible suggestion for use in making your own decisions or product choices. Product users should conduct all appropriate testing or other evaluations to determine the suitability of Ansell products for a particular purpose or use within a particular environment. It is the responsibility of a product user to assess the level of risk and to determine the protective equipment required or appropriate for the user's particular purpose. Ansell may revise this information as new information, knowledge or experience becomes available. ANSELL DISCLAIMS ALL WARRANTIES OTHER THAN AS EXPRESSLY PROVIDED.
