Quality

Trust Microflex to provide barrier protection
for you and your daily tasks.

MICROFLEX[®]
THE MOST TRUSTED NAME IN GLOVES[®]

Earning Our Reputation for Excellence

Microflex has been recognized as the quality leader among hand protection providers in the lab glove market for more than 20 years. We are committed to providing you the highest quality products and service through breakthrough innovation and scientific advancement. By constantly striving to improve and develop products, which serve your range of hand protection needs, we have earned our reputation for excellence.

As part of our commitment to providing the best products available, Microflex proudly introduces **ColorTouch® Pink** latex standard examination gloves. With relaxing all-day comfort and a wonderful cause attached to their sales, **ColorTouch® Pink** latex gloves are a worthwhile change from ordinary hand protection.

\$1 per case sold is being donated to The Breast Cancer Research Foundation®. BCRF is dedicated to preventing breast cancer and finding a cure in our lifetime by funding clinical and translational research worldwide. For more information about BCRF, visit www.bcrfcure.org

Exceeding Your Expectations

Developing gloves to suit your needs is our primary focus at Microflex. Because safety and reliability are more important today than ever before, you cannot afford to compromise on quality. That is why we are dedicated to being the leading glove manufacturer in the laboratory environment. Microflex works to understand your needs and strives to develop new products to exceed expectations.

Microflex® gloves provide consistent quality barrier protection and safety.

- Quality Protection – Our line of gloves provide barrier protection against contact with blood borne pathogens, intermittent chemical exposure, and in high-risk applications or when extra protection is required
- Comfort and Fit – our award-winning gloves reduce hand fatigue with a relaxing feel and comfortable fit that can be worn for extended periods of time
- Secure Grip –Excellent wet and dry grip for secure and precise handling
- Reliable Results – our products are designed to minimize residuals from the glove manufacturing process, protecting your experiments from external contaminants

Innovative Technologies

The Microflex Lab

Our on-site, state-of-the-art lab allows us to consistently monitor and track our quality over time. Our goal is to consistently deliver the product you expect. We are constantly evaluating current products as well as new materials, leading to us having not only an outstanding line of latex products today, but also a synthetic line designed to offer exceptional choices to meet your needs. Microflex is ISO 13485 registered, a medical device certification that surpasses the standards of an ISO 9000 quality system.

State of the Art Products

For over twenty years Microflex has been making gloves specifically for the lab market and its unique needs. Microflex® gloves provide the powerful combination of comfort, fit, strength and reliability. Call us today and have one of our experts help you find the appropriate Microflex® glove to meet your requirements.

Performance you can count on

At the center of our reputation as The Most Trusted Name in Gloves® is the Microflex Quality System—industry-leading processes and professionals dedicated to the safety and satisfaction of our valued customers. This quality assurance sets Microflex apart from the competition and gives you confidence that each glove will consistently meet your needs.

- ISO 13485 Certified
- Gloves distributed into over 35 countries worldwide
- Member of the C-TPAT program (Customs Trade Partnership against Terrorism)
- Dedicated Complaint Management Services for our distributors and end-users

MidKnight™

Our black nitrile glove, MidKnight™ is a great choice when your day-to-day hazards require the best combination of durability and consistency. Distinct color allows for a backdrop to evaluate whether a sample has completely solvated when placed in a tube.

Please refer to the Microflex® Glove Guide for a list of all Microflex® gloves or visit www.microflex.com

Our goal is to protect you by providing a barrier between your work and your hands, while providing products that help improve your productivity. Your exposure to blood borne pathogens and intermittent chemical exposure cannot be overstated. With our overall commitment to barrier protection, dedication to quality and innovation, and a unique understanding of your needs for laboratory applications, we hope to be your preferred choice for high quality, disposable gloves. We understand your need for reliable barrier protection, dexterity, strength and comfort to help promote better safety and productivity.

Choose Microflex® gloves today. Once you put them on, you will be convinced.

Microflex®. The Most Trusted Name In Gloves®.

MICROFLEX® SYNTHETIC EXAMINATION GLOVES

Tranquility™ POWDER-FREE NITRILE

PRODUCT CODE: EV-2050 • SIZES XS - XL

Microflex Chemical Resistance Guide

Microflex offers a list of chemical ratings for latex, nitrile and chloroprene glove materials to give you guidance in choosing the right glove for your needs. Ask your authorized distributor representative for a Microflex Chemical Resistance Guide or visit www.microflex.com for a printable version of the guide.

If you ever have a problem, or have any questions about your Microflex® gloves, our Customer Service team is ready to assist you. Microflex is a glove provider that is ISO 13485 registered, exceeding the normal standards of FDA, QSR, and ISO 9000 requirements. Microflex® gloves meet or exceed all current medical grade examination glove standards imposed by the ASTM International and the Food and Drug Administration (FDA). At 1.5 AQL, our gloves meet or exceed new AQL standards.
