Microporous Apron

- **Front body protection**

Bib styling protects the front of clothing from dust, dirt, oils, grime and light splashes. Neck loop and extra long ties make on-and-off easy. The microporous construction gives added durability.

Cat. No.	Size
AA409	28"W x 36"L

PACKAGING: 100/Case

Poly (PE) Apron

- **Great for general purpose applications**

All polyethylene material protects clothing from liquid splash. Embossed texture provides non-cling comfort. One-piece design is ideal for safer food handling. Dispenser pack.

Cat. No.	Size
A600	28"W x 46"L

PACKAGING: 500/Case (10 Boxes of 50)

Spunbond Coveralls

- **Economical protection from dust, dirt and grime**

Provides protection in work environments where dirt and grime are a problem. The porous construction is breathable. Elastic wrists and ankles. White coloring.

10 Dispensers of 100

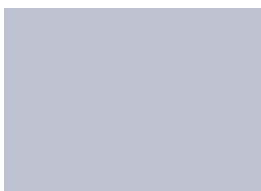

Every material is color coded to help you identify the distinguishing characteristics of each product. Choose the material and features of that product that best fit your needs and level of protection.

MATERIAL TYPE QUICK REFERENCE		
Material	Properties	Protection Rating
SMS	Durable splash and dust protection. SMS has excellent particle retention and water vapor transmission to keep workers cool.	High durability and protection.
Microporous	Cloth-like, waterproof barrier protection. Allows water vapor to escape.	Medium with excellent water protection.
PE Coated Polypropylene	Light liquid splash protection.	Basic with water protection.
Spunbond Polypropylene	Economical, light and breathable protection.	Basic protection.
Polyethylene	Good short-term barrier to most fluids. Poor moisture vapor transmission. Can be cut or ripped easily.	Temporary or light protection.
